THE COUPE DE LA LIGUE FINAL HITS THE ROAD

The final of the Coupe de la Ligue 2016-17 will be held at Lyon's Parc OL, with other state-of-the-art French stadiums to host the cup final in the seasons to come.

While the first three editions of the Coupe de la Ligue (1995-97) were held at the Parc des Princes in Paris, and since then at the Stade de France, season 2016-17 will see a new venue host the gala cup final - Olympique Lyonnais' Parc OL, on April 1, 2017.

The decision to take the Coupe de la Ligue final on the road will also benefit Bordeaux, whose brand-new Matmut Atlantique stadium will host the 2018 final and in 2019, the showpiece final will take place at LOSC's stunning Stade Pierre-Mauroy, other new stadia built in recent years for Euro 2016.

VENUE PROCEDURES

GENERAL PRINCIPLES

MEDIA ZONE ACCESS RULES

LFP MEDIA MANAGER

MEDIA PRODUCTION BRIEFING

GENERAL PRINCIPLES

Except for post-match interviews held in the press room and mixed zone (if the journalist is in possession of a French Sport Presse card or AIPS card), international broadcasters will not be allowed to

film within a stadium (either with their own facilities or using the host broadcaster facilities) without prior approved authorisation from the LFP and beIN Media Group.

ALL ON-SITE FACILITIES REQUESTS MUST BE MADE ON THE TUESDAY 16:00 GMT PRIOR TO THE RELEVANT MATCH DAY.

In order to fulfill this requirement, for each selected match, international broadcasters must fill in the TV Accreditation Request form available on <http://dat.lfp.fr/> outlining:

- Their on-site facilities requests, whereby they can request to the Host Broadcaster commentary position(s) on-site, pre/post match interviews and/or stand-up presentations.
- If international broadcasters decide to use an external service provider other than the Host Broadcaster, they must include in the TV Accreditation Request form the detailed list of the equipment (number of cameras, time and place of installation desired) and vehicle types (OB van, SNG...) that will be present in the TV compound, along with their registration numbers and dimensions.
- A detailed list of staff members present on-site including name, function, access required for each and phone number for the journalist, in order to provide each staff member with appropriate accreditation.
- Their observer seats request: international broadcasters with

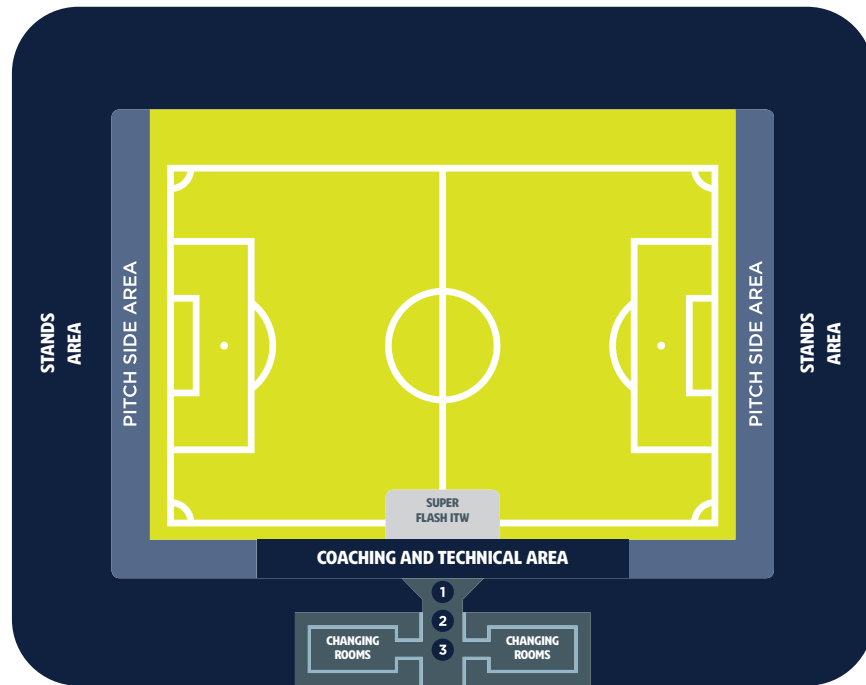

unilateral on-site facilities (i.e. production vehicles and ENG crews) may request observer seats for their accredited staff members who have a pre and post-match role on-site but not during the game itself, for example, a reporter who does pre-match presentations and post-match interviews. Please note the number of observer seats is limited.

MEDIA ZONE ACCESS RULES

The filming zones for domestic and international broadcasters, after prior approval validated by the LFP, are as follows:

- Stands Area
- Pitch Side Area
- Changing Rooms Area

- 1 PITCH ACCESS TUNNEL
- 2 FLASH INTERVIEW CORRIDOR
- 3 CHANGING ROOMS ACCESS

STANDS AREA :

international broadcasters can access the Stands Area to install cameras in the positions outlined in the Production Placement

Guide specific for each stadium, providing there is suitable space and that priority is always given to cameras of the Host Broadcaster.

PITCH SIDE AREA :

1) Pre-match, until five (5) minutes before kick-off:

it is possible to access the designated pitch side areas, as defined by the LFP Media Manager in the Media Production Briefing and without disrupting the production of the World Feed.

2) During the match:

- From five (5) minutes before kick-off to the end of the first half: it is possible to access the designated pitch side behind the goals and along the touch line, excluding the coaching technical areas, and must not disrupt the World Feed.
- From the end of the first half until kick-off of the second half: it is possible to also access the 'Super Flash Interview' area, defined by the LFP Media Manager in the Media Production Briefing.
- From the start of the second half until the final whistle: it is possible to access the designated pitch side behind the goals and along the touch line, excluding the coaching technical areas, and must not disrupt the World Feed.

3) Post-match :

- From the final whistle until the end of the World Feed (generally five minutes after the final whistle): it is possible to also access the 'Super Flash Interview' area, defined by the LFP Media Manager in the Media Production Briefing.
- After the end of the World Feed (generally five minutes after the final whistle): it is possible to access the areas defined by the LFP Media Manager in the Media Production Briefing.

CHANGING ROOMS AREA :

1) Pre-match, until five (5) minutes before kick-off:

it is possible to access the Changing Rooms Area areas as defined by the LFP Media Manager in the Media Production Briefing and without disrupting the production of the World Feed.

2) During the match, from five (5) minutes before kick-off until the final whistle:

there is strictly NO access to the Changing Rooms Area.

3) Post-match, after the final whistle: it is possible to access the Changing Rooms Area areas as defined by the

LFP Media Manager in the Media Production Briefing and without disrupting the production of the World Feed.

Access to the inside of the changing room is decided by the occupying club. To limit the number of people in the changing room, if the club allows access, only the cameras of the Host Broadcaster and club media are authorised to film, with the priority necessarily given to the cameras of the Host Broadcaster who ensures that all footage is made available to international broadcasters via the World Feed production.

Camera positions in stands area are outlined in the ppg.
